# Team Facade Coach Meeting

12/5/13

---

John Lee

Mari Masuda

Albert Pham

Abhishek Shiroor

---

# Roadmap

---

- Previous Week's Accomplishments
  - Major Findings
  - Technical Issues
  - Plan for the Following Week
-

# Previous Week's Accomplishments

---

- Almost completed control flows
- Completed testing of geofence algorithms

# Major Findings

---

- GPS Coordinates are very precise. Had to normalize numbers in order to draw them on the HTML5 canvas.

	GPS DECIMAL	X	Y	X + 570	Y + 570
Room 110 - NE	37.410632,-122.059514	0	0	570	570
Room 110 - SE	37.410502,-122.059447	130	67	700	637
Room 110 - SW	37.410466,-122.059562	166	-48	736	522
Room 110 - NW	37.410603,-122.059632	29	-118	599	452
point in middle of room 110	37.410566,-122.059538	66	-24	636	546
point outside of room 110	37.410603,-122.059406	29	108	599	678

# Technical Issues, Things to Discuss

---

- HTML5 shapes to work with jsPlumb for control structures e.g. diamond for decisions
  - Unit testing (Geofence) ; system testing
  - When is the final presentation?
    - Presentation Outline
    - Technical Report Outline
  - Acceptance Testing?
-

# Plan for the Following Week

---

- Unit testing; system testing
  - Deployment to `curie.sv.cmu.edu` (testing environment)
  - Acceptance testing?
  - Technical report
  - Presentation/Video: ATAM
  - Installation/setup document and scripts etc.
-
